

Rehaklinik Tschugg AG in the Bernese Seeland is a specialist clinic for neurorehabilitation and movement disorders, with a Parkinson's centre and epileptology. Around 330 employees work in a modern infrastructure with 96 beds for inpatients and outpatients. The clinic manages around 1,000 inpatient admissions per year and provides around 30,000 nursing days for diagnostic clarification and therapeutic care.

To complement our team, we are looking to recruit a

Specialist in neurophysiological diagnostics (FND) 50-100%

You can look forward to:

- You will be part of an interdisciplinary team with varied and exciting work
- You will plan, conduct and document patient examinations in the EEG laboratory (standard EEG, telemetry, night telemetry with respiratory parameters, tilt table examination, ECG)
- You will provide patients with information, explaining procedures and risks
- You will be responsible for intervention and exploration in the event of seizures or suspected seizures
- You will analyze and extract preliminary findings from neurophysiological examinations (long-term EEG/night telemetry evaluation)
- You are jointly responsible for the supervision and support of non-certified employees

What you bring:

- Experience in the field of electrophysiology with appropriate training in this area (EPTA, FNTA or similar) is desirable
- You have team spirit, enjoy interdisciplinary work and have good communication and computer skills
- You are open to learn and also to help train colleagues in diverse areas related to neurophysiology and EEG
- Oral knowledge of French is a plus but not a requirement

What we offer:

- Attractive workplace with various benefits (free employee car park, good public transport connections, bus stop right next to the clinic, sports facilities in the clinic at off-peak times, etc.)
- Opportunities for internal and external training and further education
- Professional networking with other health institutes, including insight into epilepsy surgery investigations in collaboration with the Inselspital

Why Rehabilitation Clinic Tschugg:

We are one of the leading rehabilitation specialists in Switzerland and are part of VAMED Switzerland. For you, this means a lot of variety and interdisciplinary co-operation at a high professional level, and at the same time on an equal footing. So if you want to make a difference and progress professionally, you've come to the right place. Because everyone can get involved with us.

We would like to get to know you. Create a profile in our application portal now and apply online. If you have any further questions, please contact Anita Bregy, Head of HRM, on +41 (0)32 338 44 08.
